DATA MANAGEMENT SPECIALISTS OF THE YEAR
MDK Solutions

Established in 2010, MDK Solutions is a leader in data security, specialising in management, security, and encryption solutions for online data. The Libourne-based organisation creates solutions for professionals, businesses, and individuals with a focus on ease of use and efficiency as it helps its customers safely navigate through today's complex digital landscape. MDK Solutions is led by its Founder, Laurent Brault, an IT security expert with a breadth of industry experience. Laurent created IT security consultancy LBR Conseil in 2007 before transforming the business into MDK Solutions – an innovator in highly-accessible security and encryption products. At the heart of the company's offering is its cloud infrastructure and intelligent USB key – tools that provide secure access to online services and add an extra layer of compliance and security for its customers.

MDK Solutions has set itself apart from its market competitors through its innovative products, which are equipped with the industry's most secure features. Their native and strong authentication ensures optimal security, whilst they also enable mobile use via an integrated VPN – delivering unrivalled flexibility for users. A data sharing feature facilitates collaboration between

colleagues, but additional security and data protection is offered through automated back-ups and file encryptions. MDK Solutions' products are fully-compatible with PC and Mac hardware and don't require a prior software installation. An expert in managing and protecting key data, the company has developed a strong reputation for the cutting-edge nature of its products and the reliability of its highly secure servers based in France.

The judging panel was particularly impressed by the company's Nomad Vault Pro solution, which enables users to access their private data from anywhere in the world. MDK Solutions' innovative back-up and sharing product is delivered through a cutting-edge USB key connected to your computer, offering users access to a 100% secure private network in seconds. Only the data's owner can access the encrypted information, and in case of accidental user error, all data is backed-up securely in MDK Solutions' cloud infrastructure. This can be retrieved via an iOS or Android device too through the Nomad Vault app – giving users flexibility and peace of mind.
